Let's run as far as we can go tonight
We'll leave this world behind
And forget the memories
Come on, run with me
Come on, hold my hand
Don't slow down, we're almost there

Shake, shake, shake those hips
And dance with me
Tonight we're gonna dance
We're gonna run and not look back, come on

I've never felt my heart beat so fast
I wish this night would never end
No words describe this
Your face says everything
You wish this night would never end

We're gonna run and not look back
We won't stop till the morning light
We've never run this far before
Come on, come on don't look back

Run with me just a little further
We can make it if we stay together
Look at us we're almost there
Come on, come on don't look back

I've never felt my heart beat so fast
I wish this night would never end
No words describe this
Your face says everything
You wish this night would never end

I've never felt my heart beat so fast
I wish this night would never end
No words describe this
Your face says everything
You wish this night would never end
