Well you got 6 kegs coming from the local package
store
and the guy there know's that there's a good chance
you're gonna need more
we got the cold taps carbon tanks 20 big bags of ice
you gotta make damn sure that the keg beer is flowin
real nice

we gotta beer party goin on we gotta beer party
we gotta beer party goin down come Saturday night

Well it's a blowout no doubt the people can't fit through
the door there's so much beer all over people slidin all
across the floor and you're fightin just to make your
way to the wall of kegs people shoutin and dancin
there's a babe with them farout legs

we gotta beer party goin on we gotta beer party
we gotta beer party going down come Saturday night

Well now it's 2 am you're up again staggerin for the
keg
you gotta buzz on so strong talking to some girl named
meg and all your buddies are cocked real good there
just as bad as you and you still can't think of any other
thing you'd rather do
