

## **Brown Floyd "Fear In America"**

Visit "[Fear In America](#)" on [MotoLyrics.com](#)

Living in oppression at the hands of tyranny  
slaves for the warlords

Fear in America....  
Don't look over your shoulder  
Your neighbors watching you  
They're coming on up and get you

Fear in America...

military industrial complex they'll take all you've got  
they're gonna run with your loaded gun yeah  
One nation living in oppression  
One nation bowing to the needs of the few  
One nation no longer sacred  
One nation under tyranny  
One nation no longer sovereign  
Industrial war machine

Fear in America  
they're gonna lock you away for no reason  
they're gonna shoot your mother
