Yeah did you ever have one of those days like you  
know like when everything you did just seemed to go to  
pot nothing went right  
you know and your looking out at your window at your  
neighbors house and thinkin how does he get it all so  
good for himself

you know and then you start the car and and the  
muffler falls off and the engine ain't running that day  
and you got a flat tire  
and a bird comes along and dumps on the windshield  
and you start the engine and it don't even start  
well you know I used to have them days just about all  
the time

Well I'll fly away into the blue suburban skies  
Yeah I'll get away and I'll leave the world behind

Yeah I'll fly away Somday I'll get away Someday (girl)

Yeah You know and like last summer we were at the  
beach sitting around  
It was a beautiful day no clouds in the sky and there  
were seagulls there  
and we were talkin about this and that and you and her  
and some other guy doing you wrong and the other  
thing  
you know and I was sucking a few beers down and I  
know it's not a good idea to do before noon but hey  
that's just the way I am sometimes and I just kept  
thinkin and thinkin all day long why not just jump on the  
Harley and go for a ride and make it all go away

Well I'll fly away into them blue suburban skies  
Yeah I'll get away and I'll leave the world behind  
Well I'll fly away someday yeah I'll get away someday

But if you ask my friends about me well this is what  
they'll  
say

Well he flew away

just like a bird up in the sky right through the clouds  
there he went just like that darlin yeah just like a  
superman darlin yeah you know he got up and he got  
away and off he was gone into that great blue sky

well he flew away into them blue suburban skies yeah  
he  
got away and he left the world behind  
(and though he could not begin to express his emotions  
he could not begin to explain how he flet)

Well he flew away someday yeah he got away  
Someday (girl)
