Count Without The 'O' by Hate May Return

Now it's judgment day and you'll pay for your sins  
No malice for you or your fucking lies

Make you suffer  
Make you pay  
For everything you've done to me  
Clench my hands around your throat

Rip it off so you can't scream  
No need for a final breath  
No need for an excuse

This is  
For every time you left me  
This is  
For every time I cared  
This is  
For every time you've betrayed me  
This is  
For every time... I DIE
