How long
Will it take
Till I
See you again
Is it
Just me
Or does
Time stop running
When I'm
Without you
It's just another forever
Another
Endless time

It has been years NOW

All I ever wanted to become (all for you)
Has crashed to pieces and now I am numb
All I ever wanted you to give (to give)
Has turned to vengeance and now I am done

Will you be there
To hold my hand
Will you be there
To grab me when I fall
When I'm
Without you
It's just another forever
Another
Endless time

I'm glad to see
I'm not the only one
Who's sad beneath
But this is how this story ends
I'm glad to see
I'm not the only one
Who's sad beneath
And this fucking story ends
