Consumed  
By your eyes  
Consumed  
By your smile  
A smile that sets my world apart  
A smile that unleashes my hate

No more goodbyes

I retreat  
From this world  
To never see  
The light again  
To never feel  
This burning pain

No more goodbyes

What comes to my mind is disgust  
What runs through my mind is disgust

When all hope dies  
And there's no place to go  
I'll reach out for you  
I'll reach out for you

Will I ever erase every memory of you?

When all hope dies...  
I'll reach out for you...
