You live it your way  
But it doesn't matter  
I do it my way -- do it better  
Why do I hate the human race?  
Just come closer face to face!

I have to tell you by the way  
Why do I hate you every day  
It's just the way you look at me  
Seems like the madman I would be

Wish I could kill you  
Which means to thrill you  
My thoughts will blow your mind away  
I'll penetrate you -- I'll violate you  
The cleaning rain will come today

Don't try to chain me  
Don't be so strange  
Why don't you join me?  
Why don't you change?  
You'll get the time to prove your mind  
Could find the way which you don't find

Wish I could drill you  
Which means to chill you  
Can't wait to take you by my hand  
Don't let me tease you  
Don't let me please you  
At least you'll get your promised land

Change!
