You said you will stand by me  
I thought you know how I feel  
But you killed the heart inside me  
Now I can choke on my tears

Just in my dreams it is so real  
You know exactly how I feel  
You are the one who makes me win  
But I know that's just a dream

Now all the pain reminds me  
That we had better days  
I know it was not your fault  
But you destroyed my dream

Just in my dreams it is so real  
You know exactly how I feel  
You are the one who makes me win  
But I know that's just a dream

But I know that's just a dream  
But I know that's just in my dreams  
- You know exactly how I feel

Just in my dreams it is so real  
You know exactly how I feel  
You are the one who makes me win  
But I know that's just a dream

A dream -- But I know --  
A dream -- But I know --  
A dream -- But I know --  
A dream -- But I know --  
A dream -- But I know --  
A dream -- But I know --  
A dream -- Just a dream --  
Just a dream!
