I won't own the consequence of your deception
Or live within the confines of your blame
I can't see your destruction of peace
From the places I know are guarded by belief
We may never undo what is ruinous
But we will weather what storms may strike
From this day on, May the torch inside always stay

Ignited with burning conviction

Become the fuse
Behold the fire of redemption
Become the fuse
Let this be the catalyst of action

You know what it takes to be ignited?
So much more to say so much more to be done
Silence can never be divided
And love will never be enough

Believe only some of what you see
Awaken the light you know exists within
You know what is holding you captive
Is in conflict with your perception

Become the fuse
Behold the fire of redemption
Become the fuse

Let this be the catalyst of action

Awaken, the dormant force
Awaken, the light within
Awaken, it must be done
Awaken, become the fuse

You know what it takes to be ignited?
So much more to say so much more to be done
Silence can never be divided
And love will never be enough
We may never undo what is ruinous
But we will weather what the storm may strike

From this day on, may the touch inside always stay

Ignited with burning conviction
Become the fuse
Behold the fire of redemption
Become the fuse
Let this be the catalyst of action
Become the fuse
Summon the fire of devotion
Become the fuse
Let this be a life transformation
