"Betrayed By Life"

In a cold unforgiving world
Alone with fear and weakness
Oppressed and dying slowly
Countless people have been, betrayed by life

No one is exempt
No one is safe

So many lives will be taken
So many lives will be ruined
So many lives, hang is balance
So many lives will been lost

Betrayed by life
Betrayed by life

As survivors we are left to mend their wounds
We are left to try their tears
We are left to pick up the pieces
Of those who have been betrayed by life
