These wounds have been revealed
(These wounds have been revealed)
Clawin' through this wasteland

No emotion lives, suffocate on hope
Swallow your last, rational thought
It taste of every heart, you've devoured
Your veins constrict
They are chokin' you
Wrapped in vanity, you're dying

Unveiled by searin' hatred
You gasp for life, you can't hold me now
I've let you go, bleed into obscurity
Clawin' through this wasteland

No emotion lives, suffocate on hope
Swallow your last, rational thought
It tastes of every heart, you've devoured
Your veins constrict
They are chokin' you
Wrapped in vanity, you're dying
