The flame was almost extinguished and the will had  
faded and escaped from me  
Two years had passed and they wilted away  
All that was left were memories of days I never lived

Now the fight is on, until there's nothing left  
I'll fight like never before  
The fight is on, until my final breath  
I've never wanted anything more

I (I) must (must) never let it die(x2)

Bonds are strengthened when they've been tested  
and mended when they've been torn  
so give all of yourself that there is to give  
cause in life to have never risked is to have never lived

Now the fight is on, until there's nothing left  
I'll fight like never before  
The fight is on, until my final breath  
I've never wanted anything more

I (I) must (must) never let it die (x4)

So resolve, reassure and push on with out fear  
Ignite the flame, because only you govern what  
tomorrow holds  
It's inside us all waiting to be awoken  
It's more than words describe  
This is the spark, let it burn, make it build  
It will never be denied

Because the fight is on, until there's nothing left  
I'll fight like never before  
The fight is on, until my final breath  
I've never wanted anything more

I (I) must (must) never let it die(x4)  
We will let it die, NEVER(x7)  
NEVER, must never let let it die  
I must never let it die(x3)
