(Intro)

Let's do it!

(Verse)

The only thing they're scared is I'll walk so tall
For years and even now they pray to watch me fall
Their pretty words and ways give me the leading vision
Doing like change, I just like to sum all the factoration

Their breath is wasted, such a bitter pill to choke on
Their time is fleeting back, they're waiting for my
swan song
Tearing me down, won't love or raise you any higher

(Bridge)

Criticize, condemned, complain
The mirror shows who takes the blame

(Chorus)

The language you speak is dead
Dishonored, disgraced
The language you speak is dead
Damaged, buried
The language you speak is dead
Indifference, forgotten
The language you speak is dead
There's never been a war where all they want such
blood

(Verse)

Still dreaming demise and you'll see it, you'll see it
The last put our first signs, they believe it, believe it
'Cause deeper inside if you let it, you let it
You speak of the end and you'll get it, you'll get it

Cheering their wakes will never raise you higher
You only damn yourself

You only damn yourself!

(Bridge)

Criticize, condemned, complain
The mirror shows who takes the blame

(Chorus)

The language you speak is dead
Dishonored, disgraced
The language you speak is dead
Damaged, buried
The language you speak is dead
Indifference, forgotten
The language you speak is dead
There's never been a war where all they want such
blood

When you kill trust
There is no resurrection
