Concrete cradle rocks  
Tucking us to comatose  
Eggshells with dead embryos  
Human being-knots

Womb conveyor on the go  
Shitting out the populace  
Breast-led cynicism and loath  
Value of devalued peace

[Chorus:]  
Try my bitter pain  
Taste the suffering on mine  
Dress the scars of bleeding skin  
Loose your mind and break the line  
Claim yourself a demigod  
Fly above that mortal dirt  
Dress the scars of bleeding skin  
Loose your mind

Vomited into this world  
Brainwashed from the start  
We - creation's bogus crown  
Baptized in our own blood

Like a tumor procreates  
We infect the universe  
Maggot souls of maggot race  
Hatched in the planet's corpse

[Chorus x2]
