Many people love destruction  
And violence rules the world  
It's a bad and mad construction  
Everything is bought and sold

[Chorus (x2):]  
Fate of mankind - perennial fight  
Fear of life - cold of night  
Born to be wild  
Born to be might

Most people are like victims  
Just trying to survive  
Some predators are fighting for them  
Wishing to take their lives

They are doomed to bite the dust  
Their veins are full of pain  
Happiness is running so fast  
Sorrow's cruel like a bane

[Chorus x4]
