Have you ever been distressed by endless pain,  
So tight embraced by obscure wings of night,  
Situating between life and death  
Heart is clenched by fear so tight

Shadows whisper calling my name  
I jump into abyss of dark  
Finding serenity from the flame  
That sizzles me

[Chorus:]

Take my heart, sip my blood  
Destroy my flesh, scatter my breath  
My dream comes true  
I'm passing through the heaven's gate  
To real life after death

Such fits of depression are torturing me  
I'm on the road from nowhere to nowhere  
The travel of the damned forgotten outcast  
From creature to eternal dust

Thousands of sins are burden my soul  
No words can describe my state  
I'm not a martyr just lost in time renegade  
That fooled by fate

[Chorus]

The end is the beginning  
I go away, so far away  
The end is the beginning  
I go away, so far away

Have you ever been distressed by endless pain,  
So tight embraced by obscure wings of night,  
Situating between life and death  
Heart is clenched by fear so tight

Shadows whisper calling my name  
I jump into abyss of dark  
Finding serenity from the flame

That sizzles me

[Chorus]

The end is the beginning  
I go away, so far away  
The end is the beginning  
I go away, so far away

The end is the beginning - I go away  
The end is the beginning - So far away  
The end is the beginning - I go away  
The end is the beginning - So far away
