Don't interrupt me when I'm talking to myself  
Outsiders aren't welcome in my private hell  
I'm a bastard, little bitch, I'm a fuckin' whore  
Sometimes I get the best of me  
At least I'm never bored  
I know I am who am I?  
Alienated unconscious feeling  
Rot away counting the dots on the ceiling  
Overload inside my attic  
Withdrawn from the real world  
Like an addict  
D.T.'s I've forgotten my name  
Who gives a fuck I was never anyone anyway  
Thoughts run together inside of my head  
There's no brain cells livin' now  
Cause we're all dead  
My asylum insane kingdom  
Me myself and I asylum  
Insane kingdom, delirium  
Me myself and I asylum, my asylum  
My asylum, this is my asylum
