"We must challenge the changes now engulfing our world for America's Enduring objectives for peace and prosperity, democracy, and human Dignity."

Needles in a vale of safety
Dry up a silent sea
Protect the country
Immediately
Necessary natives right
Deflecting all light
Never look into the eyes
Gentle lie

Doubtless on the screen
In justice we believe
Within the scope of legality
But left on your own
Grown up as them all
Decisions desired to ratify the law

Never want to know
The secrets of the high brow
Upright in blue
Eye over you

Revenge violence priviledge
Exactly chosen quality
Intuitive systematically
Faultless protection
Neutral selection
All what it seems
Must be a new world's dream

Never want to know
The secrets of the high brow
Upright in blue
Eye over you

Eye over you (at 3:22 in right speaker)
