

Hatsune Miku

"Nezzwerk"

Creeping pole-changing
Anger implant
Silent offence
Domination spread
Key to control
Any primitive action

The root feeds the bud
The symptoms rise
Long-range weapons
Distant control worldwide
Feedback pride never deny

The public is synchronized
Prepared to find
The solution to keep itself blind

Prepare to retaliate
Represent something
Free from defects
Easy to inspire
An already flaming object
Most logic way
To demonstrate
An innermost faith
The public is synchronized
Prepared to find
The solution to keep itself alive

Hidden but existing
Pervert all natural laws
Immense resonance
Extend to the end
Regenerate
Respect
No escape
Hit me master whoever you are
