

Hatsune Miku

"World Window"

This public perversion
Requires no own motion
More execution on demand
Displayed in detail
Extreme conditions
In an effective composition
Prepared for transmission
This is a motive
To avert the suspicion
That we are already hurt

Realtime desire
Sleeper on fire
A strangers fury
Protects the own integrity
Another tragedy
Gives me identity
Lie back watch clarity
Sufficient dosed pity
The tin feelings
Only extreme difference
Though that short distance

Can't sleep tonight
Can't recognize myself
Blindfold

Pay per emotion
Short-dated devotion
An old and new generation
Switches off frustration
Plastic heart
Torn apart
Soul removed
From the start
Long-life simulation
Switch off frustration
