### "Distance"

Visit "[Distance](#)" on MotoLyrics.com

long distance pilots completely changing views  
exactly different in its roots  
wide band journey through dynamic crowds  
sparkling but unreal

[no matter where the sun goes down  
no matter if it really happens  
all those deficiencies satisfied in dreams]

activate entrances to personal spaces  
i find myself in a million places  
we're rushing through intelligent motion loops  
carrying dynamic crowds  
sparkling but unreal

[no matter where the sun goes down  
no matter if it really happens  
all those deficiencies satisfied in dreams]

wide band journey  
through dynamic crowds  
sparkling but unreal

[no matter where the sun goes down  
no matter if it really happens  
all those deficiencies satisfied in dreams] (x4)
