I can hear it coming  
I know it's on it's way  
When it starts to overflow  
I fall asleep again

And the way you're talking  
Is telling me it's here  
And when you start to overflow  
I will lie again

Do you feel it glowing?  
Do you feel it's here?  
Anywhere I'm going  
It's near

I can feel it coming  
On the faces that you wear  
Until they start to overflow  
I've given all I can

Do you feel it glowing?  
Do you feel it's here?  
Anywhere I'm going  
It's near
