I broke the silence
I rose the volume
Hunted the hunters and nobody cared

I lost relation to
Where I stand
I hope the ceiling is
Breakable

I am free of noize
I am free of noize
Come on, robot, wake up
Robots don't sleep

I solved a problem
I blew all brains
Out of the event horizon

I lost relation to
Where I am
I hope the lenses are
Switchable

I am free of noize
I am free of noize
Come on, robot, wake up
I don't need to sleep
