Sun and Air,  
Sun and Air  
Sun and Air,  
Sun and Air

It used to be we breathe the Sun and Air  
You and I is where I wanna be  
It used to be we breathe the Sun and Air (Laughing  
along without a care)  
You and I is where I wanna be (Just to raise the thought  
all over me)

I'm glad you are a girl  
I'm pleased to know you  
I like you for you  
I'm happy you're growing up

It used to be we breathe the Sun and Air (Laughing  
along without a care)  
You and I is where I wanna be (Just to raise the thought  
all over me)  
Until we reach the journey's end,  
When I'm with you, I'd do it all again (When I'm with  
you, I do it all again)

When I'm with you, I do it all again..

Until we reach the journey's end...
