name me one thing that you have ever stayed true to
besides the trends.

you change, you switch you go with the motherfucking
seasons.

so tell me just why should I ever trust you
when I know you're not true. when I know just what
friendship
meant to you...NOTHING

the cooler crowd walked on by you dropped me like a
bad habit
so all your talk of brotherhood proves you're a lying
sack of shit
I think you've got things confused I'm not your fucking
latter
for you to gain some higher ground. especially when
good will

isn't even abound.

your fucking tune, it's old as time
so don't feed me that bullshit line
I see our friendship. what's it for?
I'm cutting you off because I've seen friends like you
before

you scum, you fuck, fucking scum

don't call yourself my friend
and then leave me in the dust
what's wrong? what's wrong with you?
your intentions aren't true
what's wrong? what the fuck's wrong with you?
it's every fucking thing you do
don't sing to me
