I hoped you would see
That together we're better...
I want, want you to see
That together's alright...
Please don't ignore me please
Cause together we're better...
We are supposed to be together all night

You've got to, got to see
That together we're better...
Please listen, listen please...
Cause together's alright...

I want, want you to see
That together we're better...
I want, want you to see
That together's alright...
Please don't ignore me please
Cause together we're better...
We are supposed to be together all night

You've got to, got to see
That together we're better...
Please listen, listen please
Cause together we're alright

You've got to, got to see
Things can only get better
I want, want you to see
That together's alright...

Xxbridgexx

You've got to, got to see
Things can only get better...
Please listen, listen please
Cause together we're alright...

Cause together we're better...
Cause together we're better...
Cause together we're better...

Cause together we're better...
