Estella steps in silence  
Her every movement caught  
Encased in gilded memory

Here it comes again  
Anticipation racing through me  
Thrilling with emotion  
You still me

Estella, Estella you  
You're missing all you see  
I'm missing you

Estella, Estella you dream  
You're missing all you see  
I'm missing you

Estella moves in shadows  
Her every whisper caught  
Exhale and draw it in again

When everything gets lost in the twilight  
I'll be waiting  
You keep me guessing  
You enigma, you dream

Estella, Estella you  
You're missing all you see  
I'm missing you

Estella, Estella you dream  
You're missing all you see  
I'm missing you my sweet

Wide eyed, weak kneed  
Stare me through my soul  
You pierce me

I know, we need  
Nothing short of holding, nothing back  
Come down to me  
And I'll show you, you mean worlds to me, you do

Fare thee well, my love  
The last time in a whisper  
She whispered back

Fare thee well, my love  
Believe me when I say  
I love you madly, deeply always

Estella, Estella you  
You're missing all you see  
I'm missing you

Estella, Estella you dream  
You're missing all you see  
I'm missing you
