Hey there, hey there girly, you're always on my mind
And it's too bad we can't go out and do stuff all the
time
You gotta know that you are my one and only girl
And together we will make the cutest couple in the
world

Now don't you have no doubts,
Cuz you know we can work it out.
And you will always be my girl.

Hey there, hey there girly, you're always on my mind

And it's too bad we can't go out and do stuff all the
time
You gotta know that you are my one and only girl
And together we will make the cutest couple in the
world

Now don't you have no doubts,
Cuz you know we can work it out.
And you will always be my girl.

I fell in a pile of you and got love all over me.
And you know you will always be my girl.
