This is not a plea for peace but a call to war  
Though some shall decease and some shall suffer  
more some  
See the light and turn and fight knowing that burning  
bright  
Is it's own reward  
Like a star goes nova before it dies  
Let's overthrow the thrones expose the lies  
Or aren't you sick of being victimized?

This is not a time for talk but a time to act  
Get up and walk it off or die lying on your back  
Pick up the pace or we lose the race  
It's time to face up to what we lack  
There's things you want and things you need  
A brand new SUV a new disease  
Hi-def don't show no real realities.

[Chorus:]

Two steps back is a losing battle  
And I don't think it's ever gonna stop  
One push back and it's the gallows  
One snap they call it suicide by cop.

Another old man in the same dead age  
Another blank space on an empty page  
"the future is unwritten" yeah it's all the rage  
But ain't no one writing shit in this fucking cage  
Except marks on a wall as days pass by  
We chip away until we die  
Our legacies these bloody lullabies.

Two thousand and eight another bummer  
Not a sound from the encumbered numbers  
No not a peep 'cos the scars run deep  
So awash in grief we escape to slumber  
Who can sleep in these beds they made?  
Good fucking joke short sheet a shallow grave  
Alarm clock ringing bring the dead.

[Chorus]
