There's gonna be a riot
It starts with this sound
Everybody on the dancefloor
Have nots are coming 'round

They took away our right now
To protest in peace
This is all we're left with
It's time we cut the leash

The great writ got thrown away
When they signed the '06 MCA,
And everything this fucking country
Ever stood for has become unglued,
So fly your flags and blind your vision,
Might just keep you out of prison,
When martial law is coming down on you

There's gonna be a riot
It starts with this sound
Everybody on the dancefloor
Have nots are coming 'round

They took away our rights now
Til we had no more
This is all we're left with
And this means fucking war

This isn't liberty, homeland security,
This aristocracy, took it from you and me,
They've got immunity, move with impunity,
They're fucking ruining constitutionality,
Now every cop on the street is an enemy soldier,
Doesn't need probable cause to hold ya,
Don't wanna have to say I told ya,
Don't wanna have to sing this song at all
