I wait for you, I always do
Can't fight the feeling, that I am feeling
I need to stop, I can't get off
I need to show you, oh so let me show you
Have no fear
Have no fear

I cant pretend it's easy to change and I cant be sure it
wont go away
But I'm gonna be here right until the end
She speaks softly, and cries out loud

When will it stop? I cant get off
I need to show you, so let me show you
Have no fear
Have no fear
Have no fear
Have no fear

I cant pretend it's easy to change and I cant be sure it
wont go away
But I'm gonna be here right until the end
She speaks softly, and cries out loud

Help me to stop
I need, I need
Help me to stop

She speaks softly, and cries out loud
I cant pretend it's easy to change and I cant be sure it
wont go away
But I'm gonna be here right until the end
She speaks softly, and cries out loud
Cries out loud
