Crawling here to you, so you'll help me  
Come on lay me down, down  
Crawling here to you, so you'll take me  
Come on lay me down, down

And though I must confess  
I tried to slip away, yet again  
Won't work, can't feel me in  
Keeps on giving in

Crawling here to you, so you'll take me  
Come on lay me down, down  
Crawling here to you, so you'll take me  
Come on lay me down, down

And though I must confess  
I tried to slip away, yet again  
Won't work, can't feel me in  
Keeps on giving in

(Though I must confess)  
And though I must confess  
(Though I must confess)  
I tried to slip away again  
(Though I must confess)  
Won't work, can't feel me in  
Keeps on giving in

And though I must confess  
(Though I must confess)  
I tried to slip away again  
Won't work, can't feel me in  
Keeps on giving in

(Though I must confess)  
(Though I must confess)  
(Though I must confess)  
Keeps on giving in
