"Let It Live"

Visit "[Let It Live](#)" on MotoLyrics.com

Can you be a part of something
Without thought for self or mind
You're still soul searching for the right lines

Need no excuse to wonder
'Cause it's more than you can take
You stay true, but no one's gonna pull you out

Let it live
Let it live
Let it breath life today

Can you be part of something
Even though you're still unsure
You stay true, but no one's gonna pull you out

Let it live
Let it live
Let it breath life today

Let it live
Let it live
Let it breath life today

Life today
Let it live
Let it live
Let it breath life today

Let it live
Let it live
Let it breath life today

Life today
Life today
Life today
