Talkin trash on others that's all u ever do
Youre not impressing me im getting sick of you
Bringing others down instead or helping them up
Youre just another hypocrite who can't keep their
Mouth shut

Do us all a favor
And keep to yourself what you know
Your stupidity is beginning to show
If you can't learn to
Think before you speak
Then i don't wanna hear
What you have to say or think

Always trying to make
Others look woress than you

Its pretty pathetic you
Got nothing better to do

Remember you'll get
What's comin your way
You'll be an embarrassment
To someone else someday

I don't care what you think
