Uhh, yeah

Yeah, she lookin' right over there

Mmm

My neck, my fingers and my wrist

Don't make me empty a clip

Get a bottom upset and that's it

Make a toast with my dough, take a sip

Plenty cross on the kush, get lit

Talk, phone me up, do it up, take flicks

Look at you so grown and sexy

Pool three, yeah, you top pedigree

So pretty and full of energy

Ass fat lookin' like need to be friend of B

Relax ma, I'm a QB rider

Anything pop off, trust me, it's minor

Provider, hold you down real well

No stress, no chicks caught in a cell

Keep you so fresh that it'll never go stale

You in-house inbox like e-mail, yeah

Ooh, I think I'm gonna like this, baby

Come and tell me more, tell me more

And when you said do it, know you can live up to it

Now here's your chance to prove it

I'm listenin', tell me more

Ice snub, damn silhouette

Get it wet, I ain't even kill it yet

You about the gettin' freaky with a strange

Jodeci and Sade in the change

Little nasty somethin', tongue on my fingers

Let me be your personal trainer

Hey ma, let's get it in, get your weight up

Wanna see how good you look without makeup

Livin' real sick, big with a city view

Mess around we can make a home video

Late night, uncut, ass clap

Blow cloud, take a pull, pass that

Eyes low, break day

Forgot about tomorrow, where's V.A.

I know, can't stay

Ma, make an excuse, come back out to play, hey

Ooh, I think I'm gonna like this, baby

Come and tell me more, tell me more

And when you said do it, know you can live up to it

Now here's your chance to prove it

I'm listenin', tell me more

Tastes just like cotton candy

My hands get sticky when we

Sucker ass, niggaz just fall off

Fall in love then wanna marry

Not me though, let the games begin

Never ever save me in your cell phone

At the end of the day, homegirl

That's how we win

Your description's got my attention

I think I'm with it just for tonight

No commitment, we just takin' it

Boy, you got this just for tonight

Ooh, I think I'm gonna like this, baby

Come and tell me more, tell me more

And when you said do it, know you can live up to it

Now here's your chance to prove it

I'm listenin', tell me more

Ooh, I think I'm gonna like this, baby

Come and tell me more, tell me more

And when you said do it, know you can live up to it

Now here's your chance to prove it

I'm listenin', tell me more
