They know us, the meanest
Baddest boys in town
Ripping up at full speed
Don't you cower out

Getting in the way
We kick you to the side
Buying your new way
Don't you stop our ride

Pull the chains, watch them live on
We are living in sin
Pull the chains, watch them live on
We are living in sin

We sacrifice our bodies
To get just what we need
To satisfy our endless lingering for
Passion, lust and greed

Climb up on our wagon
We'll take you to the top
Eastward to the dragons
Where the fun will never stop

Pull the chains, watch them live on
We are living in sin
Pull the chains, watch them live on
We are living in...

Sin (hahaha)
Would you like
Symphony littered
(Ahahahaha)

We are
Living
In...

Sin
(Ahahah)

I love sin

Pull the chains, watch them live on
We are living in sin
Pull the chains, watch them live on
We are living in...

[Guitar solo]

Pull the chains, watch them live on
We are living in sin
Pull the chains, watch them live on
We are living in sin

We are living in sin

We are living in sin
