You never ever leave my mind  
My sweet sweet Madyline  
Everytime I look into your eyes  
I feel like I'm alive

And I can barely make a sound  
Whenever you're around  
You can find me hiding in the crowd  
NExt time you come to town

(Chorus)  
Everytime I want to say "Hello"  
Every time I want to stay, I go  
Can't ever find the words to let you know  
Sometimes, you play my mind  
A million times (2x)

Wish I could somehow let you know  
That all the way from here to Mexico  
You're the one and only girl for me  
he he, tu onu, bonjour, we we

And my tounge gets tied so quick  
I get so nervous I'm feeling sick  
I turn into the world's worst Romeo  
Everytime I try to say hello.

(YOUR SO FLY. BEEN ON MY MIND. GET NERVOUS  
EVERYTIME I SEE YOU HOP ONLINE)

Chorus  
Everytime I want to say "Hello"  
Every time I want to stay, I go  
Can't ever find the words to let you know  
Sometimes, you play my mind  
A million times (5x)
