I know sometimes it's hard to find  
The strength to turn the page  
When all of our tomorrows  
Look like used up yesterdays

Maybe this path we're taking  
Could really be the road to breaking free  
Are you with me?

One little revolution could turn it all around  
Back to the Kingdom we once knew  
Just a little bit of me, just a little bit of you  
One little miracle to get us through  
To get us through, to get us through

Broken, empty promises  
Are all we knew before  
Our Father's dreams of better days

Lay shattered on the floor

It's not too late to start believing  
Take me by the hand, I'm reaching out  
How about now? Yeah hey

One little revolution could turn it all around  
Back to the Kingdom we once knew  
Just a little bit of me and a little bit of you  
One little miracle to get us through

We can right the wrong  
From this moment on

One little revolution could turn it all around  
Back to the Kingdom we once knew  
With a little bit of me and a little bit of you  
One little miracle to get us through  
We'll get through, yeah, we'll get through
