Tomorrow May Not Come  
Am I the only one  
Whose staring up at the sun  
Am I the only one

I'm thinking any day now, I could be all alone  
You need to realize it, where did I come from  
Tomorrow may not come

Tomorrow is at hand  
Give me a second chance  
The world that is all around  
Is lost, but needs to be found

I'm thinking any day now, I could be all alone  
You need to realize it, where did I come from  
Tomorrow may not come

I'm thinking any day now, I could be all alone  
You need to realize it, where did I come from  
Woah, woah  
I'm thinking any day now, I could be all alone  
Woah, woah  
You need to realize it, where did I come from  
Woah, woah  
I'm thinking any day now, I could be all alone  
Woah, woah  
You need to realize it, where did I come from

Noo, tomorrow may not come

Tomorrow may not come  
Am I the only one  
Whose staring up at the sun  
Am I the only one
