I'm a wounded soldier on a downtown train to your
place
You've launched a secret heart with your face
You don't always say what I want to hear but you move
me
Across the rooftops and into the deep blue sea

Did we not choose each other
Are we just heroes for a day
This time I will stand by you
And mine is the heart I will save

I drew a hard line but I just can't see it
Your colors are bleeding all over my bullshit
I wanna be your star but I gotta learn to feel myself
I want your love and I need your help

Did we not choose each other
Are we just heroes for a day
This time I will stand by you
And mine is the heart I will save

Can we not judge each other
I'd rather wipe your tears away
I can follow my heart til the end
But I just can't choose the way

Just because we live like dolphins together
So many reasons to break the wave
We can swim from street lamp to street lamp whatever
We can be kissing in the rain

Can we not judge each other
I'd rather wipe your tears away
I can follow my heart til the end
But I just can't choose the way

Listen baby listen baby
Don't you do me wrong
I can my my bed
You can sing your song
Ain't nobody else gonna make you shine

If it's truth you seek
Then darling
Love you'll find
I don't wanna
I don't wanna
Take your pain away
It isn't yours to give
It isn't mine to save
Here's my heart
Here's my hand
Here's my soul
Take it in
Take it apart
Take it easy
Let it go
