

Hawksley Workman "Lethal And Young"

Visit "[Lethal And Young](#)" on MotoLyrics.com

It's been fun, destroying our bodies
It's been great, just being together
Crash another car, smoke another cigarette
Make love to all our favourites on the radio
Cause we don't know how to make it go
We're only told how to burn it down
Then skip town

So don't look so damn tragic
You knew this had to pass and
So don't look so damn tragic
In front of your own mother
She brought you here and now you have to stay, to stay

So be thankful, that you're in love
Be thankful that you're in peices
Cause baby it's a beggar being bitten by this but
After all you're all young
You're all lethal and young
You're all lethal and young
You're all lethal and young
