"When You Gonna Flower?"

When you gonna flower
When you gonna bloom
We can go for hours
We can go till two

When you gonna flower in my heart
When you gonna break me down to my parts
When you gonna whisper into the dark
When you gonna flower

When you gonna ask me
When you gonna say
When you gonna let me go
Let me go my way

When we gonna stay up all night long
When we gonna finally sing our song
When we gonna feel that something's wrong
When we gonna flower

In my heart
