A flight of steel eagles tearing by
The ripped silk scream of the rended sky
Flame on through sound and make time fly
What a good way to go, what a good way to go
In the Aerospace-Age Inferno

Fly through sound like a circus hound
Through the burning hoop with just one bound
So not even your ashes will be found
What a good way to go, what a good way to go
In the Aerospace-Age Inferno

Set the controls for the heart of the Earth
The Silver Machine is worth more than you're worth
But the phoenix soul is bound for rebirth
What a good way to go, what a good way to go
In the Aerospace-Age Inferno
