Breathing in the same sequence
While trying to make sense
Of this situation that we got ourselves in
Two more weeks of one-way conversation
She swears she's losing interest
I swear that we are best friends

...til the end

This could be the plan for revenge
But these words lead to dead ends

So close your eyes and kiss me like it's the last time
These lips need medication
These days are dripping poison girl
Days turn to nights, i wish on the stars in the sky
Be careful of the brightest, beauty is on the inside

I wish i could, but i know i can't take it back
Its serious, just like heart attacks
One personality, avoid the scenery, i hate playing
games
With the industry
That builds these dreams and tears them down
When my heart breaks, it makes a sound
