The medicine is blending in
Mixing the blood and oxygen

I needed this right now
To figure myself out
Cutting through the ribbons of self doubt
I never thought you would see me this way
You are the worst and i am to blame

Close the door, lock it tight
Then I'll know you're safe tonight
Turn on a song that means the most
Believe im there and hold me close

She is in my bloodstream
Tonight she's draining me
The room is filled with reds and blues
I follow as she leads into the darkness
Drying up my veins
Shes a ghost, a silhouette, calling out my name

These lies will fall into
The pieces i left you
Of your favorite picture torn in two
I never thought we would end up this way
You are the worst, i am to blame

So close the door and lock it tight
Then i will know you're safe tonight
Turn on a song that means that most,
Believe im there and hold me close
