I pay my stamps and I pay my tax
I daren't stop working and that's a fact
And all I see on the TV screens
Are starving kids and war machines
Is this what I've been taught in school?
Is education the golden rule?

Quick! Somebody help me! This man is dying!

Beware you slithering slime of earth
You shall return to the time of birth
We shall destroy your civil probe
Slice apart your ????? lobe

???? ???? deceit to a knot
Melt you down to liquid snot
Hair will burn from the Acid Rain
While we'll find sanctuary in your brain

We'll feast upon your guide at will
And your babies we shall kill
You mother will die a hideous death
Your father will burn from our fire breath

We are the dark lords of hades deep
To see your deathly soul will keep
You'll burn forever in the pit of hate
For to suffer in Hades' your fate
