"Make What You Can"

Visit "[Make What You Can](#)" on MotoLyrics.com

make what you can when you say
Take what you can when you may
I see it all through my eyes
I see it all through these lies

Make what you can when you take
Take what you can when you make
Make what you can when you're takin'
Take what you can when you're makin'

Make what you can when you take
Take what you can when you make
I see it all in your eyes
I see it all through my eyes

Make what you can when you take
take what you can when you make
Take what you can when you make it
Make what you can when you take it
Take what you can when you make it
Make what you can when you take it
