"Neon Skyline"

Visit "[Neon Skyline](#)" on MotoLyrics.com

Before my eyes, a neon skyline
Colours drip, dimensions entwine
Twisting matter, time and space
Got to leave reality's waste
Colours blind us
Lights and liquids
Darkness hides us
>From the conscience
I changed my course, I had no choice
I always listen to my inner voice
Projecting auras used to create
Escape into the next stargate
Colours blind us
Lights and liquids
Darkness hides us
>From the conscience
Before my eyes, a neon skyline
Another trip, beyond the mind
Senses swirling in my head
As darkness falls upon the ledge
Colours blind us
Lights and liquids
Darkness hides us
>From the conscience
