Rocky paths, winding round
Inspiration is to be found
Following us now with sound
Coming from earthy ground

Keeping up an open mind
In everyone you will find
A part to help you climb
The walls built up by time

Never close yourself to more
Learn we can, that's for sure
And it isn't hard to ignore
Heart that has an open door

Rocky paths, winding round
Inspiration is to be found
Following us now with sound
Coming from earthy ground
